Farm buildings and structures are exempt from the Virginia Uniform Statewide Building Code (USBC). In order to qualify for the exemption, a structure must be used for a specific purpose that is directly related to farming operations. The Code of Virginia Section 36-97 defines a farm building/structure as follows:

Farm Structure (Building): A building or structure not used for residential purposes, located on property where farming operations take place, and is used primarily for any of the following uses or combinations thereof:

1. Storage, handling, production, display, sampling or sale of agricultural, horticultural, floricultural or silvicultural products produced on the farm;
2. Sheltering, raising, handling, processing or sale of agricultural animals or agricultural animal products;
3. Business or office uses relating to the farm operations;
4. Use of farm machinery or equipment or maintenance or storage of vehicles, machinery or equipment on the farm;
5. Storage of use of supplies and materials used on the farm; or,
6. Implementation of best management practices associated with farm operation.

Such buildings or structures lying within a flood plain or in a mudslide-prone area are subject to floodproofing and/or mudslide regulations. This exemption does not apply to any building or portion thereof used or operated as a restaurant and license by the Board of Health.
